DEPARTMENT OF GENETICS
Professor Joshua Lederberg

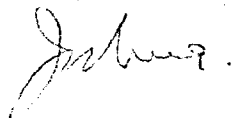

Dear Ralph:

Only recently, I began to look anew at the literature on arms control (since about 1953) and via Jerome Frank's book found a reference to your paper on 'truth detection' in the Millis collection on preventing WW3.

Could you bring me up to date on the literature on this subject? Does ACDA support such work?

My column of ~~XXXXXX~~ January 1967 is of course a parody on the administrative structure that could enhance credibility. I am also sending you a few more current pieces on related issues.

Sincerely,

Dr. R. W. Gerard
